

Flexible Solutions Softwall Cleanrooms

We offer both Quick Ship standard designs and custom-engineered built-to-order softwall cleanrooms.

Self-contained *Flexible Solutions* Softwall Cleanrooms are offered in ISO Class 5 through 9, or US Federal Standard 209 Class 100 through 100,000.

Several options are available including casters, telescoping legs, a variety of curtain choices, and our exclusive state-of-the-art *SAMlink* Control System.

For more information about options, customized rooms or special applications, call one of our cleanroom experts located in your area. Or consult with our [Sales Department](#) for more information.
