

Air Filtration Equipment

"Manufacturers' Agents in the Air Pollution Control Industry"

Woodworking – Air Filtration Equipment

Bag Type Dust Collectors

- High efficiency bag style units
- Pulse-jet cleaning or shaker type systems for extended filter life
- Many available options including explosion vents

Booth Type Dust Collectors

- Useful for the collection of dust when working on large components
- Modular system allows for the selection of any size of booth
- High efficiency filtration allows for re-circulation of air

Downdraft Benches

- Manual and self-cleaning tables available
- Backward inclined non-sparking aluminum fan wheels
- Heavy welded construction provides extended durability

Industrial Vacuum Systems

- Large central or portable type systems
- Useful for housekeeping duties or for vacuum assist tools
- Filtered air can be re-circulated back into the factory
